

Hilltop Special Service Center Wellness Program SERVICE SUMMARY OF 2012-2013 SCHOOL YEAR

Total Number of Youth Served

80 [Non-Duplicated]

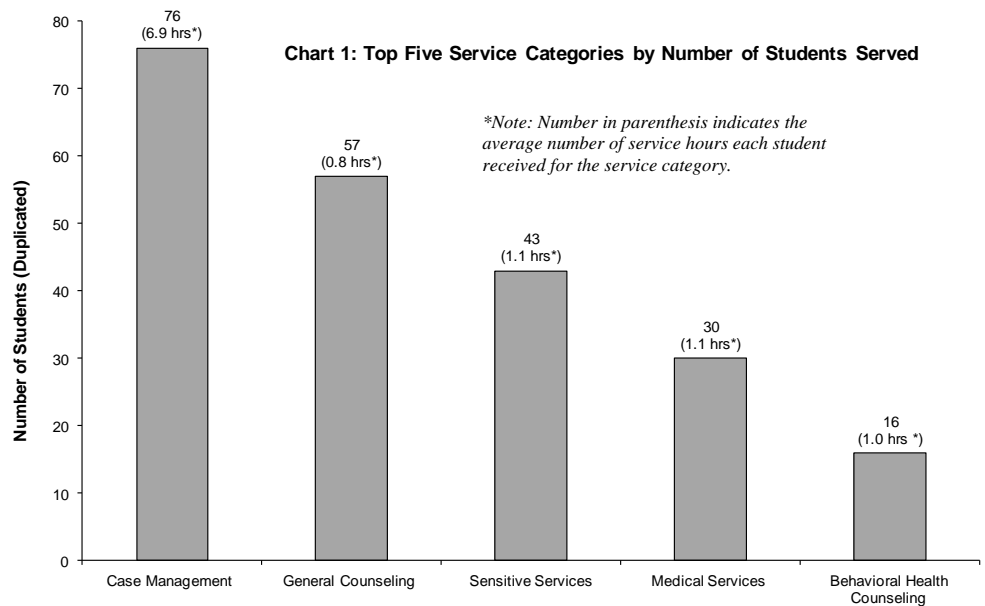

148% of 54 (the student population at Hilltop in 12-13)^

Total Number of Service Hours Provided

662 (an average of 8.3 hours per student)

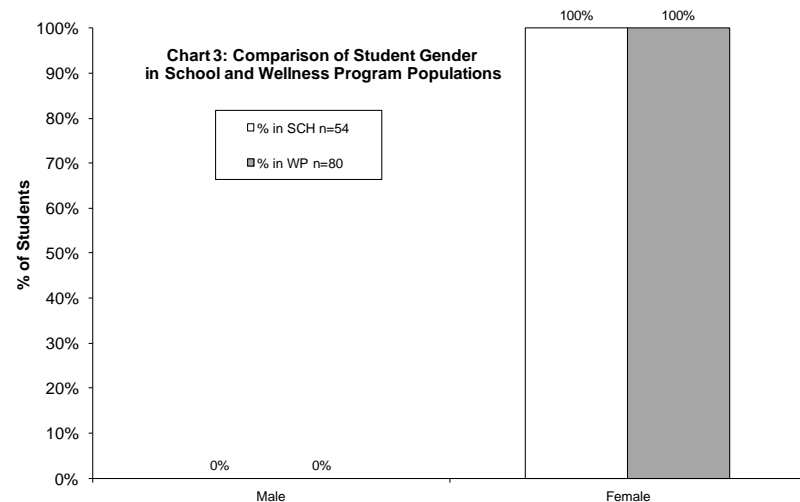

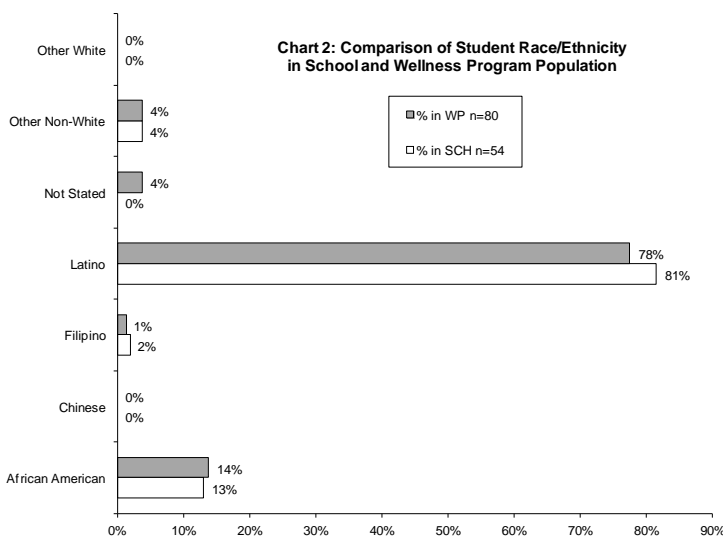

TYPES OF SERVICE

- The top three most accessed services were *Case Management* (95% of all youth served), *General Counseling* (71%), and *Sensitive Services* (54%). The top five service categories are shown in Chart 1.
- The most time intensive service provided was *Case Management* where youth received an average of 6.9 hours of services.

PARTICIPANT DEMOGRAPHICS

- Demographic data on the racial/ethnic groups served are presented in Chart 2. Latino students made up 78% of the students served, African American students made up 14% of the students served and Other Non-White made up 4% of the students served.
- All of the students served were female students (Chart 3).

Data for Charts 1, 2 and 3 was obtained from the Contract Management System (CMS) managed by the San Francisco Department of Children, Youth and Their Families and School Site Profiles from the San Francisco Unified School District at www.sfusd.edu. The SFUSD and CMS information reflects data available during the 2012-13 school year. In Chart 1, Medical Services refers to services primarily provided by the School Nurse. Behavioral health counseling refers to clinical counseling services provided by a licensed or license-eligible counselor. General Counseling refers to non-clinical counseling provided by non-licensed staff. Sensitive Services refers to reproductive health services.

^Students can be placed at Hilltop throughout the school year, thus the number of students increases as the year progresses. However, student enrollment figures are based on data from October 2012.

Core funding for the Wellness Programs comes from the City of San Francisco's Children's Fund and the Public Education Enrichment Fund (PEEF) of the San Francisco Unified School District.
